Online Safety Policy

This policy applies to all members of the school community (including staff, learners, volunteers, parents and carers, visitors, community users) who have access to and are users of school digital systems, both in and out of the school. It also applies to the use of personal digital technology on the school site (where allowed).

Date created: 24/08/2026

Next review date: 01/09/2027

Scope of the Online Safety Policy

This Online Safety Policy outlines the commitment of Liberty Academy Trust Schools to safeguard members of our school community online in accordance with statutory guidance and best practice.

This Online Safety Policy applies to all members of the school community (including staff, learners, governors, volunteers, parents and carers, visitors, community users) who have access to and are users of school digital systems, both in and out of the school. It also applies to the use of personal digital technology on the school site (where allowed).

All LAT schools will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents/carers of incidents of inappropriate online safety behaviour that take place out of school.

The Trust recognises that online risks fall broadly into four areas:

- Content: exposure to illegal, inappropriate or harmful content including pornography, racism, misogyny, self-harm, suicide, antisemitism, radicalisation, extremism, misinformation, disinformation and conspiracy theories.
- Contact: harmful online interactions with adults, peers or generative AI applications that simulate such interactions, including grooming, exploitation, coercion and commercial pressures.
- Conduct: behaviour that increases the likelihood of harm such as bullying, harassment, sharing nude or semi-nude images, including AI-generated imagery.
- Commerce: risks such as gambling, phishing, scams, financial exploitation and inappropriate advertising.

Policy development, monitoring and review

This Online Safety Policy has been developed by the LAT Safeguarding network made up of:

- *Principals/senior leaders*
- *Designated safeguarding lead (DSL)*
- *Director of Safeguarding*

- *Trustees and local committee Safeguarding links*

Schedule for development, monitoring and review

This Online Safety Policy was approved by the LAT Board of Trustees:	*Awaiting approval – September 2026*
The implementation of this Online Safety Policy will be monitored by:	LAT Safeguarding Network LAT IT Manager
Monitoring will take place at regular intervals:	Termly
The Board of Trustees will receive a report on the implementation of the Online Safety Policy generated by the monitoring group (which will include anonymous details of online safety incidents) at regular intervals:	Termly
The Online Safety Policy will be reviewed annually, or more regularly in the light of any significant new technological developments, new threats to online safety or incidents that have taken place. The next anticipated review will be:	August 2027
Should serious online safety incidents take place, the following external persons/agencies should be informed:	*LAT Director of Safeguarding* *LA safeguarding officer, Social care and police as relevant*

Process for monitoring the impact of the Online Safety Policy

The school will monitor the impact of the policy using:

- *logs of reported incidents*
- *Filtering and monitoring reports*
- *Reviews of the effectiveness of the filtering and monitoring systems*
- *internal monitoring data for network activity*
- *surveys/questionnaires of:*
    - *learners*

- *parents and carers*
- *staff.*

Policy and leadership

Responsibilities

Online safety is a shared responsibility. All members of the school community are expected to model safe, responsible behaviour, report concerns promptly and learn from incidents and good practice. The roles below clarify accountability

Principal and senior leaders

Senior leaders set the culture and ensure that systems are effective. In line with KCSIE, the DSL holds day-to-day lead responsibility.

- Ensure the school meets its safeguarding duty of care, including online safety.
- Know and apply procedures for serious allegations involving staff (Principal plus at least one senior leader).
- Ensure that the DSL, IT provider/technical staff and relevant colleagues are trained and able to fulfil their roles.
- Ensure that all staff receive appropriate online safety training which, amongst other things, includes an understanding of the expectations, applicable roles and responsibilities in relation to filtering and monitoring
- Ensure that children are taught about how to keep themselves and others safe online, recognising that effective education will be tailored to the specific needs and vulnerabilities of individual children.
- Put in place appropriate oversight and support for internal monitoring activity. • Establish and receive regular online safety reports and act on emerging risks and themes.
- Establish a nominated SLT Lead to work with the DSL and IT provider on the (at least annual) review of the effectiveness on filtering and monitoring systems and ensure that these are recorded

Trustees

Trustees approve the Online Safety Policy and challenge its effectiveness. KCSIE requires them to:

- Ensure that all staff undergo safeguarding and child protection training (including online safety which, amongst other things, includes an

understanding of the expectations, applicable roles and responsibilities in relation to filtering and monitoring – at induction and regularly updated
- Ensure that children be taught about safeguarding, including in relation to online safety
- Review the DfE Filtering and Monitoring Standards and discuss with IT staff and service providers what more needs to be done to support the school in meeting this standard

The Trustees nominate an Online Safety Trustee who will:

- Meet regularly with the Director of Safeguarding and DSLs.
- Receive anonymised incident and monitoring summaries.
- Check delivery of key commitments (e.g., education, reporting, staff training).
- Have an understanding of filtering and monitoring and through regular review, assess the effectiveness of filtering and monitoring with SLT, DSL and IT provider, in line with KCSIE and DfE Filtering and Monitoring standards.
- Report to the Education and Standards committee
- Undertake basic cyber security awareness training and support school cyber security oversight.
- Participate in the Safeguarding network.

The Board of Trustees will also support the school in encouraging parents/carers and the wider community to become engaged in online safety activities.

Designated Safety Lead (DSL)

KCSIE states that the DSL leads safeguarding and child protection, including online safety, and understands filtering and monitoring systems and processes. KCSIE requires this to explicit in the DSL's job description.

The DSL will:

- Lead safeguarding, including online safety, with clear responsibilities in their job description.
- Maintain awareness of emerging risks associated with generative artificial intelligence, including simulated relationships, AI-generated content, bias, misinformation and safeguarding concerns arising from AI interactions.

- Coordinate and record online safety concerns and incidents, escalating and referring in line with safeguarding procedures.
- Liaise with SLT, the Online Safety Governor, the IT provider and relevant external partners as required.
- Review anonymised incident patterns and filtering/monitoring information.
- With the nominated SLT Lead and the IT provider lead the (at least annual) review of the effectiveness on filtering and monitoring systems and ensure that these are recorded
- Report regularly to SLT and drive continuous improvement across relevant policies and practice, using evidence (e.g. incident data, monitoring, self-review such as 360 safe).
- Ensure appropriate support for learners with SEND. An Online Safety Lead (OSL) may support delivery; the DSL retains lead responsibility.

Online Safety Lead
The Online Safety Lead will:

- Lead the Online Safety Group and support the DSL day to day.
- Lead development and review of online safety documentation.
- Coordinate awareness, staff confidence and reporting readiness through appropriate training
- Work with curriculum leads to map, embed and evaluate online safety education.
- Liaise with IT and pastoral/support teams.
- Maintain current knowledge of risks across content, contact, conduct and commerce.

Curriculum Leads

Curriculum leads will work with the DSL/OSL to deliver a planned online safety programme through appropriate channels, e.g. Computing, PSHE/RSE, other curriculum areas, assemblies/pastoral provision and national initiatives e.g. Safer Internet Day.

Teaching and support staff

School staff are responsible for ensuring that:

- they have an awareness of current online safety matters/trends and of the current school Online Safety Policy and practices
- they understand that online safety is a core part of safeguarding

- they have read, understood, and signed the staff acceptable use agreement (AUA) and separate AI AUP.
- they follow all relevant guidance and legislation including, for example, Keeping Children Safe in Education and UK GDPR regulations
- all digital communications with learners, parents and carers and others should be on a professional level and only carried out using official school systems and devices (where staff use AI, they should only use school-approved AI services for work purposes which have been evaluated to comply with organisational security and oversight requirements
- they immediately report any suspected misuse or problem to the DSL for investigation/action, in line with the school safeguarding procedures
- Report any AI breaches via the AI Incident reporting process
- all digital communications with learners and parents/carers are on a professional level and only carried out using official school systems
- online safety issues are embedded in all aspects of the curriculum and other activities
- ensure learners understand and follow the Online Safety Policy and acceptable use agreements, have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they supervise and monitor the use of digital technologies, mobile devices, cameras, etc., in lessons and other school activities (where allowed) and implement current policies regarding these devices
- in lessons where internet use is pre-planned learners are guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches
- where lessons take place using live-streaming or video-conferencing, there is regard to national safeguarding guidance and local safeguarding policies
- there is a zero-tolerance approach to incidents of online-bullying, sexual harassment, discrimination, hatred etc
- they model safe, responsible, and professional online behaviours in their own use of technology, including out of school and in their use of social media.
- they adhere to the school's cyber security policy, with regard to the use of devices, systems and passwords and have an understanding of basic cybersecurity

- they have a general understanding of how the learners in their care use digital technologies out of school, in order to be aware of online safety issues that may develop from the use of those technologies
- they are aware of the benefits and risks of the use of Artificial Intelligence (AI) services in school, being transparent in how they use these services, prioritising human oversight. AI should assist, not replace, human decision-making. Staff must ensure that final judgments, particularly those affecting people, are made by humans, fact-checked and critically evaluated. See LAT AI Principles

IT Provider

The IT provider supports leaders and the DSL to meet DfE filtering, monitoring and technical standards. Where services are outsourced, the school remains accountable. The IT provider will:

- Maintain secure infrastructure and managed user access.
- Implement, maintain and update filtering and monitoring; provide reports; act on alerts and concerns.
- Support procurement, risk identification, reviews and checks with SLT/DSL
- Monitor systems for misuse and report concerns promptly to the Designated Safeguarding Lead.
- Follow the school's Online Safety and Technical Security policies and keep technical knowledge current.

Learners

Learners will:

- Follow the Learner AUA and Online Safety Policy (including personal devices where permitted).
- Report concerns and know how to get help.
- Use technology responsibly, respecting others and their copyright and intellectual property.
- Use AI responsibly: protect original work, check accuracy and avoid plagiarism.
- Understand that AI systems may generate inaccurate, biased or manipulative responses and report any content that causes concern.
- Understand that out-of-school behaviour may be addressed where it affects the school community.

Parents and carers

Parents/carers are key partners in reinforcing safe online behaviour. The school will:

- Publish the Online Safety Policy and share the learner AUA.
- Provide guidance on the responsible use of online technologies and seek permissions for digital services/images where required.
- Share updates through meetings, newsletters, online channels and campaigns.

Parents/carers will be encouraged to reinforce key messages and support safe use of personal devices (where permitted in school).

Community users

Community users accessing school systems or platforms will sign a Community User AUA before access is provided. The school welcomes partnership working and shares good practice where appropriate.

Online Safety Group

The Schools Online Safety Group provides a consultative group that has wide representation from the school community, with responsibility for issues regarding online safety and monitoring the Online Safety Policy including the impact of initiatives. Depending on the size or structure of the school this group may be part of the safeguarding team meeting. The group will also be responsible for regular reporting to senior leaders, the local committee and LAT Safeguarding network.

The Online Safety Group has the following members:

- Designated Safeguarding Lead
- Online Safety Lead
- senior leaders
- online safety/Safeguarding committee member
- technical staff
- teacher and support staff members

The online safety group may include learner, parent/carer and community representation where appropriate.

Members of the Online Safety Group will assist the DSL/OSL with:

- the production/review/monitoring of the school Online Safety Policy/documents
- the production/review/monitoring of the school filtering policy and requests for filtering changes
- mapping and reviewing the online safety education provision – ensuring relevance, breadth and progression and coverage
- reviewing network/filtering/monitoring/incident logs, where possible
- encouraging the contribution of learners to staff awareness, emerging trends and the school online safety provision
- consulting stakeholders – including staff/parents/carers about the online safety provision
- monitoring improvement actions identified through use of the 360-degree safe self-review tool.

Professional Standards

There is an expectation that professional standards will be applied to online safety as in other aspects of school life i.e.

- there is a consistent emphasis on the central importance of literacy, numeracy, digital competence and digital resilience. Learners will be supported in gaining skills across all areas of the curriculum and every opportunity will be taken to extend learners' skills and competence

- there is a willingness to develop and apply new techniques to suit the purposes of intended learning in a structured and considered approach and to learn from the experience, while taking care to avoid risks that may be attached to the adoption of developing technologies e.g. Artificial Intelligence (AI) tools.

- Staff are able to reflect on their practice, individually and collectively, against agreed standards of effective practice and affirm and celebrate their successes

- policies and protocols are in place for the use of online communication technology between the staff and other members of the school and wider community, using officially sanctioned school mechanisms.

- Where Generative AI is used to monitor staff communications, it will be balanced with respect for privacy and transparency about what is being monitored and why.

Policy

Online Safety Policy
The DfE guidance "Keeping Children Safe in Education" states:

> "Online safety and the school or college's approach to it should be reflected in the child protection policy"

The school Online Safety Policy:

- sets expectations for the safe and responsible use of digital technologies for learning, administration, and communication
- allocates responsibilities for the delivery of the policy

- is regularly reviewed in a collaborative manner, taking account of online safety incidents and changes/trends in technology and related behaviours
- establishes guidance for staff in how they should use digital technologies responsibly, protecting themselves and the school and how they should use this understanding to help safeguard learners in the digital world
- describes how the school will help prepare learners to be safe and responsible users of online technologies
- establishes clear procedures to identify, report, respond to and record the misuse of digital technologies and online safety incidents, including external support mechanisms
- is supplemented by a series of related acceptable use agreements
- is made available to staff at induction and through normal communication channels
- is published on the school website.

Acceptable use

The school has defined what it regards as acceptable/unacceptable use and this is shown in the tables below.

Acceptable use agreements:

The Online Safety Policy and acceptable use agreements define acceptable use at the school. The acceptable use agreements will be communicated/re-enforced through:

- learner handbook
- staff induction and handbook
- splash screens
- digital signage
- posters/notices around where technology is used
- communication with parents/carers
- built into education sessions
- school website
- peer support.

User actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
Users shall not access online content (including apps, games, sites) to make, post, download, upload, data transfer, communicate or pass on, material, remarks, proposals or comments that contain or relate to:	**Any illegal activity for example:** • Child sexual abuse imagery* • Child sexual abuse/exploitation/grooming • Terrorism • Encouraging or assisting suicide • Offences relating to sexual images i.e., revenge and extreme pornography • Incitement to and threats of violence • Hate crime • Public order offences - harassment and stalking • Drug-related offences • Weapons / firearms offences • Fraud and financial crime including money laundering					X
Users shall not undertake activities that might be classed as cyber-crime under the Computer	• Using another individual's username or ID and password to access data, a program, or parts of a system that the user is not authorised to access (even if the initial access is authorised) • Gaining unauthorised access to school networks, data and					X

User actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
Misuse Act (1990)	files, through the use of computers/devices • Creating or propagating computer viruses or other harmful files • Revealing or publicising confidential or proprietary information (e.g., financial / personal information, databases, computer / network access codes and passwords) • Disable/Impair/Disrupt network functionality through the use of computers/devices • Using penetration testing equipment (without relevant permission)					
Users shall not undertake activities that are not illegal but are classed as unacceptable in school policies:	Accessing inappropriate material/activities online in a school setting including pornography, gambling, drugs. (Informed by the school's filtering practices and/or AUAs)				X	
	Promotion of any kind of discrimination				X	
	Using school systems to run a private business				X	

User actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
	Using systems, applications, websites or other mechanisms that bypass the filtering/monitoring or other safeguards employed by the school				X	
	Infringing copyright and intellectual property (including through the use of AI services)				X	
	Unfair usage (downloading/uploading large files that hinders others in their use of the internet)			X	X	
	Any other information which may be offensive to others or breaches the integrity of the ethos of the school or brings the school into disrepute				X	

	Staff and other adults	**Learners**

Consideration should be given for the following activities when undertaken for non-educational purposes:	Not allowed	Allowed	Allowed at certain times	Allowed for selected staff	Not allowed	Allowed	Allowed at certain times	Allowed with staff permission/awareness
Online gaming	x							x
Online shopping/commerce			x	x	x			
File sharing				x	x			
Social media	x				x			
Messaging/chat		x						x
Entertainment streaming e.g. Netflix, Disney+			x					x
Use of video *broadcasting*, e.g. YouTube, Twitch, TikTok	x				x			
Mobile phones may be brought to school		x			x			
Use of mobile phones for learning at school	x				x			
Use of mobile phones in social time at school			x		x			
Taking photos on mobile phones/cameras	x				x			
Use of other personal devices, e.g. tablets, gaming devices	x				x			
Use of personal e-mail in school, or on school network/wi-fi			x	x			x	x
Use of school e-mail for personal e-mails	x							x
Use of AI services that have not been approved by the school	x				x			
Use of other personal devices e.g. tablets, gaming devices	X unless authorised by Principal				x			

Use of smart glasses, wearable cameras, wearable recording devices, XR headsets or similar technology	X unless authorised by Principal				x			

When using communication technologies, the school considers the following as good practice:

- when communicating in a professional capacity, staff should ensure that the technologies they use are officially sanctioned by the school.
- any digital communication between staff and learners or parents/carers (e-mail, social media, learning platform, etc.) must be professional in tone and content. *Personal e-mail addresses, text messaging or social media must not be used for these communications*.
- staff should be expected to follow good practice when using personal social media regarding their own professional reputation and that of the school and its community
- users should immediately report to a nominated person – in accordance with the school policy – the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication.
- relevant policies and permissions should be followed when posting information online e.g., school website and social media. Only school e-mail addresses should be used to identify members of staff and learners.

Reporting and responding

The school will take all reasonable precautions to ensure online safety for all school users but recognises that incidents may occur inside and outside of the school (with impact on the school) which will need intervention. The school will ensure:

- there are clear reporting routes which are understood and followed by all members of the school community which are consistent with the school safeguarding procedures, and with the whistleblowing, complaints and managing allegations policies.
- all members of the school community will be made aware of the need to report online safety issues/incidents
- reports will be dealt with as soon as is practically possible once they are received

- the Designated Safeguarding Lead, Online Safety Lead and other responsible staff have appropriate skills and training to deal with online safety risks.
- if there is any suspicion that the incident involves any illegal activity or the potential for serious harm the incident must be escalated through the agreed school safeguarding procedures, this may include
    - Non-consensual images
    - Self-generated images
    - Terrorism/extremism
    - Hate crime/ Abuse
    - Fraud and extortion
    - Harassment/stalking
    - Child Sexual Abuse Material (CSAM)
    - Child Sexual Exploitation Grooming
    - Extreme Pornography
    - Sale of illegal materials/substances
    - Cyber or hacking offences under the Computer Misuse Act
    - Copyright theft or piracy
- any concern about staff misuse will be reported to the Principal, unless the concern involves the Principal, in which case the complaint is referred to the LAT Director of Safeguarding as per the Safeguarding Policy.
- where AI is used to support monitoring and incident reporting, human oversight is maintained to interpret nuances and context that AI might miss
- where there is no suspected illegal activity, devices may be checked using the following procedures:
    - one or more senior members of staff should be involved in this process. This is vital to protect individuals if accusations are subsequently reported.
    - conduct the procedure using a designated device that will not be used by learners and, if necessary, can be taken off site by the police should the need arise (should illegal activity be subsequently suspected). Use the same device for the duration of the procedure.
    - ensure that the relevant staff have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
    - record the URL of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being

used for investigation. These may be printed, signed, and attached to the form

- once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does, then appropriate action will be required and could include the following:
    - internal response or discipline procedures
    - involvement by local authority / MAT (as relevant)
    - police involvement and/or action

- it is important that those reporting an online safety incident have confidence that the report will be treated seriously and dealt with effectively
- there are support strategies in place e.g., staff check in's for those reporting or affected by an online safety incident
- incidents should be logged on CPOMS.
- relevant staff are aware of external sources of support and guidance in dealing with online safety issues, e.g. local authority; police; Professionals Online Safety Helpline; Reporting Harmful Content; CEOP.
- those involved in the incident will be provided with an appropriate level of feedback about the outcome of the investigation and follow up actions (as relevant)
- learning from the incident (or pattern of incidents) will be provided (as relevant and anonymously) to:
    - *the Online Safety Group for consideration of updates to policies or education programmes and to review how effectively the report was dealt with*
    - *staff, through regular briefings*
    - *learners, through assemblies/lessons*
    - *parents/carers, through newsletters, school social media, website*
    - *governors, through regular safeguarding updates*
    - *local authority/external agencies, as relevant*

The school will make the flowchart below available to staff to support the decision-making process for dealing with online safety incidents.

Liberty Academy Trust

Designated Safeguarding Lead (DSL) notified of an Online Safety incident[1]

Carry out immediate safeguarding actions necessary to protect individuals

Unsuitable or inappropriate materials or activity

Illegal materials or activities found/suspected

Convene Safeguarding Incident Review Meeting

Investigate incident and discuss with the learner / staff / to determine what happened

Update parents/carers on incident as applicable

Ensure the wellbeing of those involved is addressed.

Ensure Incident Log is updated and make available as required

Review policies & processes and identify learning opportunities

Ensure updates to practice are shared with staff

Implement changes and monitor situation.

Wellbeing of a child potentially at risk

Staff, volunteer or other adult

Follow established safeguarding arrangements and report to the Police immediately

Refer to the LA, LADO and follow HR processes

Secure and preserve evidence in-line with Police/DOS/Safeguarding advice. Remember, do NOT investigate yourself.

Await Police response

If no illegal activity or content is confirmed, revert to internal procedures

If illegal activity or content is confirmed, allow Police or relevant authority to complete their investigation and seek advice from the relevant professional body.

In the case of a member of staff or volunteer, it is possible that a suspension will take place at the point of referral to the Police whilst investigations are undertaken. Always ensure DOS advice and HR processes are correctly applied and followed

[1] This flowchart provides a suggested outline process for dealing with online safety incidents. You may wish to adapt and align with existing safeguarding policy and practice to ensure there is a consistent approach to managing safeguarding incidents in your setting.

[2] The Incident Review Meeting (IRM) will typically take place as soon as possible after a serious incident to determine next steps and will usually follow any immediate safeguarding actions that have been taken (note: less serious incidents may not require an IRM).

School actions

It is more likely that the school will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour/disciplinary procedures as follows: (the school will need to agree upon its own responses and place the ticks in the relevant columns. They may also wish to add additional text to the column(s) on the left to clarify issues. Schools have found it useful to use the charts below at staff meetings/training sessions)

Responding to Learner Actions

Incidents	Refer to class teacher/tutor	Refer to DSL / Deputy Principal	Refer to Principal	Refer to Police/Social Work	Refer to LAT technical support for advice/action	Inform parents/carers	Remove device/ network/internet access	Issue a warning	Further sanction, in line with behaviour policy
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on User Actions on unsuitable/inappropriate activities).		X	X	X	x	x	x	x	x
Attempting to access or accessing the school network, using another user's account (staff or		**X**	**X**	**X**	**X**	**X**	**X**	**X**	**X**

learner) or allowing others to access school network by sharing username and passwords									
Corrupting or destroying the data of other users.		X	X	X	X	X	X	X	X
Sending an e-mail, text or message that is regarded as offensive, harassment or of a bullying nature	X	X	X	X	X	X	X	X	X
Unauthorised downloading or uploading of files or use of file sharing.	X	X	X		X	X	X	X	X
Using proxy sites or other means to subvert the school's filtering system.	X	X	X		X	X	X	X	X
Accidentally accessing offensive or pornographic material and failing to report the incident.	X	X	X		X	X	X	X	X
Deliberately accessing or trying to access offensive or	X	X	X		X	X	X	X	X

pornographic material.									
Receipt or transmission of material that infringes the copyright of another person or infringes the Data Protection Act.	X	X	X			X	X	X	X
Unauthorised use of digital devices (including taking images)	X	X			X	X	X	X	X
Unauthorised use of online services	X	X			X	X	X	X	X
Actions which could bring the school into disrepute or breach the integrity or the ethos of the school.	X	X	X			X	X	X	X
Continued infringements of the above, following previous warnings or sanctions.	X	X	X	X	X	X	X	X	X

Responding to Staff Actions

Incidents	Refer to line manager	Refer to Principal	Refer to MAT Director of Safeguarding	Refer to LADO/ Police	Refer to LAT Technical Support Staff for action re filtering, etc.	Issue a warning	Suspension	Disciplinary action
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable / inappropriate activities)		X	X	X	X	X	X	X
Actions which breach data protection or network / cyber security rules		X	X	X	X	X	X	X
Deliberate actions to breach data protection or network security rules.		X	X		X	X	X	X
Deliberately accessing or trying to access offensive or pornographic material	X	X	X		X	X	X	X
Corrupting or destroying the data of other users or causing deliberate damage to hardware or software	X	X	X	X	X	X	X	X

Using proxy sites or other means to subvert the school's filtering system.	X		X		X	X		X
Unauthorised downloading or uploading of files or file sharing	X		X		X	X		
Breaching copyright/intellectual property or licensing regulations (including through the use of AI systems).	X	X	X		X	X		X
Allowing others to access school network by sharing username and passwords or attempting to access or accessing the school network, using another person's account.	X		X		X	X		X
Sending an e-mail, text or message that is regarded as offensive, harassment or of a bullying nature	X		X		X	X	X	X
Using personal e-mail/social networking/messaging to carry out digital communications with learners and parents/carers	X		X		X	X	X	X
Inappropriate personal use of the digital technologies	X	X	X		X	X		X

e.g. social media / personal e-mail								
Careless use of personal data, e.g. displaying, holding or transferring data in an insecure manner	X	X	X		X	X		X
Actions which could compromise the staff member's professional standing	X	X	X			X	X	X
Actions which could bring the school into disrepute or breach the integrity or the ethos of the school.	X	X	X			X	X	X
Failing to report incidents whether caused by deliberate or accidental actions	X	X	X			X	X	X
Continued infringements of the above, following previous warnings or sanctions.	X	X	X			X	X	X

The use of Artificial Intelligence (AI) systems in School

As Generative Artificial Intelligence (gen AI) continues to advance and influence the world we live in, its role in education is also evolving. There are currently 3 key dimensions of AI use in schools: learner support, teacher support and school operations; ensuring all use is safe, ethical and responsible is essential.

We realise that there are risks involved in the use of Gen AI services, but that these can be mitigated through our existing policies and procedures, amending these as necessary to address the risks.

We will educate staff and learners about safe and ethical use of AI, preparing them for a future in which these technologies are likely to play an increasing role.

The safeguarding of staff and learners will, as always, be at the forefront of our policy and practice. The Trust recognises that learners may be exposed to harmful interactions generated by artificial intelligence systems, including simulated friendships, manipulative conversations, grooming-style interactions, misleading advice and inaccurate information. Such concerns will be managed through existing safeguarding procedures.

Policy Statements

- The school acknowledges the potential benefits of the use of AI in an educational context - including enhancing learning and teaching, improving outcomes, improving administrative processes, reducing workload and preparing staff and learners for a future in which AI technology will be an integral part. Staff are encouraged to use AI based tools to support their work where appropriate, within the frameworks provided below and are required to be professionally responsible and accountable for this area of their work.
- We will comply with all relevant legislation and guidance, with reference to guidance contained in Keeping Children Safe in Education and UK GDPR
- We will provide relevant training for staff and governors in the advantages, use of and potential risks of AI. We will support staff in identifying training and development needs to enable relevant opportunities.
- We will seek to embed learning about AI as appropriate in our curriculum offer, including supporting learners to understand how gen AI works, its potential benefits, risks, and ethical and social impacts. The school recognises the importance of equipping learners with the knowledge, skills and strategies to engage responsibly with AI tools.
- As set out in the staff acceptable use agreement, staff will be supported to use AI tools responsibly, ensuring the protection of both personal and sensitive data. Staff should only input anonymised data to avoid the exposure of personally identifiable or sensitive information.
- Staff will always ensure AI tools used comply with UK GDPR and other data protection regulations. They must verify that tools meet data security standards before using them for work related to the school.
- Only those AI technologies approved by the school may be used. Staff should always use school-provided AI accounts for work purposes. These

accounts are configured to comply with organisational security and oversight requirements, reducing the risk of data breaches.

- We will protect sensitive information. Staff must not input sensitive information, such as internal documents or strategic plans, into third-party AI tools unless explicitly vetted for that purpose. They must always recognise and safeguard sensitive data.
- The school will ensure that when AI is used, it will not infringe copyright or intellectual property conventions – care will be taken to avoid intellectual property, including that of the learners, being used to train generative AI models without appropriate consent.
- AI incidents must be reported promptly via this link AI Incident. Staff must report any incidents involving AI misuse, data breaches, or inappropriate outputs immediately to the relevant internal teams. Quick reporting helps mitigate risks and facilitates a prompt response.
- The school will audit all AI systems in use and assess their potential impact on staff, learners and the school's systems and procedures, creating an AI inventory listing all tools in use, their purpose and potential risks.
- We are aware of the potential risk for discrimination and bias in the outputs from AI tools and have in place interventions and protocols to deal with any issues that may arise. When procuring and implementing AI systems, we will follow due care and diligence to prioritise fairness and safety.
- The school will support parents and carers in their understanding of the use of AI in the school
- AI tools may be used to assist teachers in the assessment of learners' work, identification of areas for improvement and the provision of feedback. Teachers may also support learners to gain feedback on their own work using AI
- Maintain Transparency in AI-Generated Content. Staff should ensure that documents, emails, presentations, and other outputs influenced by AI include clear labels or notes indicating AI assistance. Clearly marking AI-generated content helps build trust and ensures that others are informed when AI has been used in communications or documents.
- We will prioritise human oversight. AI should assist, not replace, human decision-making. Staff must ensure that final judgments, particularly those affecting people, are made by humans and critically evaluate AI-generated outputs. They must ensure that all AI-generated content is fact-checked and reviewed for accuracy before sharing or publishing. This is especially important for external communication to avoid spreading misinformation.
- Recourse for improper use and disciplinary procedures. Improper use of AI tools, including breaches of data protection standards, misuse of sensitive

information, or failure to adhere to this agreement, will be subject to disciplinary action as defined in Staff Disciplinary Policy.

- The Trust recognises that AI systems may be used to facilitate bullying, harassment, impersonation, fraud and the creation of fabricated images, audio and video content. Such incidents will be managed in line with safeguarding and behaviour procedures.

Online Safety Education Programme

While regulation and technical solutions are particularly important, their use must be balanced by educating learners to take a responsible approach. The education of learners in online safety is therefore an essential part of the school's online safety provision. Learners need the help and support of the school to recognise and avoid online safety risks and develop their resilience.

The 2021 Ofsted "Review of Sexual Abuse in Schools and Colleges" highlighted the need for:

> *"a carefully sequenced RSHE curriculum, based on the Department for Education's (DfE's) statutory guidance, that specifically includes sexual harassment and sexual violence, including online. This should include time for open discussion of topics that children and young people tell us they find particularly difficult, such as consent and the sending of 'nudes'.."*

Keeping Children Safe in Education states:

> "*Governing bodies and proprietors should ensure online safety is a running and interrelated theme whilst devising and implementing their whole school or college approach to safeguarding and related policies and procedures. This will include considering how online safety is reflected as required in all relevant policies and considering online safety whilst planning the curriculum ..."*

Online safety should be a focus in all areas of the curriculum and staff should reinforce online safety messages across the curriculum. The online safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways (statements may need to be adapted, depending on school structure and the age of the learners).

- A planned online safety curriculum for all year groups matched against a nationally agreed framework e.g. Education for a Connected Work Framework by UKCIS/DCMS and the SWGfL Project Evolve and regularly taught in a variety of contexts.
- Lessons are matched to need; are age-related and build on prior learning
- Lessons are context-relevant with agreed objectives leading to clear and evidenced outcomes
- Learner need and progress are addressed through effective planning and assessment
- Digital competency is planned and effectively threaded through the appropriate digital pillars in other curriculum areas e.g. PHSE; SRE; Literacy etc
- it incorporates/makes use of relevant national initiatives and opportunities e.g. Safer Internet Day and Anti-bullying week
- the programme will be accessible to learners at different ages and abilities such as those with additional learning needs or those with English as an additional language.
- learners should be taught in all lessons to be critically aware of the materials/content they access online and be guided to validate the accuracy of information (including where the information is gained from Artificial Intelligence services)
- learners should be taught to identify misinformation, disinformation, conspiracy theories and AI-generated content and understand how to critically evaluate accuracy, reliability and trustworthiness.
- learners should be taught to acknowledge the source of information used and to respect copyright / intellectual property when using material accessed on the internet and particularly through the use of Artificial Intelligence services
- vulnerability is actively addressed as part of a personalised online safety curriculum e.g., for victims of abuse and SEND.
- learners should be helped to understand the need for the learner acceptable use agreement and encouraged to adopt safe and responsible use both within and outside school. Acceptable use is reinforced across the curriculum, with opportunities to discuss how to act within moral and legal boundaries online, with reference to the Computer Misuse Act 1990. Lessons and further resources are available on the CyberChoices site.

- staff should act as good role models in their use of digital technologies the internet and mobile devices
- in lessons where internet use is pre-planned, it is best practice that learners should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches
- where learners are allowed to freely search the internet, staff should be vigilant in supervising the learners and monitoring the content of the websites/tools (Including AI systems) the learners visit/use
- it is accepted that from time to time, for good educational reasons, students may need to research topics, (e.g. racism, drugs, discrimination) that would normally result in internet searches being blocked. In such a situation, staff should be able to request the temporary removal of those sites from the filtered list for the period of study. Any request to do so, should be auditable, with clear reasons for the need
- **the online safety education programme should be relevant and up to date to ensure the quality of learning and outcomes.**

Contribution of Learners

The school acknowledges, learns from, and uses the skills and knowledge of learners in the use of digital technologies. We recognise the potential for this to shape the online safety approach for the school community and how this contributes positively to the personal development of young people. Their contribution is recognised through: (amend as relevant)

- *mechanisms to canvass learner feedback and opinion.*
- *appointment of digital leaders/anti-bullying ambassadors/peer mentors (or similar groups)*
- *the Online Safety Group has learner representation*
- *learners contribute to the online safety education programme e.g. peer education, digital leaders leading lessons for younger learners, online safety campaigns*
- *learners designing/updating acceptable use agreements*
- *contributing to online safety events with the wider school community e.g. parents' evenings, family learning programmes etc.*

Staff/volunteers

All staff will receive online safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- a planned programme of formal online safety and data protection training will be made available to all staff through in person training and the use of National College. This will be regularly updated and reinforced.
- the training will be an integral part of the school's annual safeguarding, data protection and cybersecurity training for all staff
- all new staff will receive online safety training as part of their induction programme, ensuring that they fully understand the school online safety policy and acceptable use agreements. It includes explicit reference to classroom management, professional conduct, online reputation and the need to model positive online behaviours.
- the Online Safety Lead and Designated Safeguarding Lead (or other nominated person) will receive regular updates through LAT Safeguarding Network attendance at external training events, (e.g. UKSIC / SWGfL / MAT / LA / other relevant organisations) and by reviewing guidance documents released by relevant organisations
- this Online Safety Policy and its updates will be presented to and discussed by staff in staff/team meetings/INSET days
- the Designated Safeguarding Lead/Online Safety Lead (or other nominated person) will provide advice/guidance/training to individuals as required.

Trustees and local committee links

Trustees and local committee link members should take part in online safety training/awareness sessions, with particular importance for those who are members of any sub-committee/group involved in technology/online safety/health and safety/safeguarding. This may be offered in several ways such as:

- attendance at training provided by the Liberty Academy Trust (LAT) or other relevant organisation (e.g., SWGfL)
- participation in school training / information sessions for staff or parents

A higher level of training will be made available to (at least) the Safeguarding/Online Safety Trustee. This will include:

- Cyber-security training (at least at a basic level)

- Training to allow the Trustee to understand the school's filtering and monitoring provision, in order that they can participate in the required checks and review.

Families

The school will seek to provide information and awareness to parents and carers through:

- regular communication, awareness-raising and engagement on online safety issues, curriculum activities and reporting routes
- regular opportunities for engagement with parents/carers on online safety issues through awareness workshops / parent/carer evenings etc
- the learners – who are encouraged to pass on to parents the online safety messages they have learned in lessons and by learners leading sessions at parent/carer evenings.
- letters, newsletters, website, learning platform,
- high profile events / campaigns e.g. Safer Internet Day
- reference to the relevant web sites/publications, e.g. SWGfL; www.saferinternet.org.uk/; www.childnet.com/parents-and-carers (see Appendix for further links/resources).
- Sharing good practice with other schools in clusters and or the local authority/MAT
- National college weekly newsletter

Adults and Agencies

The school will provide opportunities for local community groups and members of the wider community to gain from the school's online safety knowledge and experience. This may be offered through the following:

- online safety messages targeted towards families and relatives.
- providing family learning courses in use of digital technologies and online safety
- providing online safety information via their website and social media for the wider community
- supporting community groups, e.g. early years settings, childminders, youth/sports/voluntary groups to enhance their online safety provision

Technology

The school is responsible for ensuring that the school infrastructure/network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. The school should ensure that all staff are made aware of policies and procedures in place on a regular basis and explain that everyone is responsible for online safety and data protection.

Filtering & Monitoring

The DfE guidance (for England) on filtering and monitoring in "Keeping Children Safe in Education" states:

> "It is essential that governing bodies and proprietors ensure that appropriate filtering and monitoring systems are in place …governing bodies and proprietors should be doing all that they reasonably can to limit children's exposure to the … risks from the school's or college's IT system. As part of this process, governing bodies and proprietors should ensure their school or college has appropriate filtering and monitoring systems in place and regularly review their effectiveness. They should ensure that the leadership team and relevant staff have an awareness and understanding of the provisions in place and manage them effectively and know how to escalate concerns when identified…
>
> The appropriateness of any filtering and monitoring systems are a matter for individual schools and colleges and will be informed in part, by the risk assessment required by the Prevent Duty. To support schools and colleges to meet this duty, the Department for Education has published filtering and monitoring standards…"

The school filtering and monitoring provision is agreed by senior leaders, Trustees and the IT Service Provider and is regularly reviewed (at least annually) and updated in response to changes in technology and patterns of online safety incidents/behaviours

Day to day management of filtering and monitoring systems requires the specialist knowledge of both safeguarding and IT staff to be effective. The DSL will have lead responsibility for safeguarding and online safety and the IT service provider will have technical responsibility

The filtering and monitoring provision is reviewed (at least annually) by senior leaders, the Designated Safeguarding Lead and Trustees with the involvement of the IT Service Provider. The outcomes of these reviews will be documented and any actions identified will be monitored through the Trust safeguarding governance structures.
Checks on the filtering and monitoring system are carried out by the IT Service Provider with the involvement of a senior leader, the Designated Safeguarding Lead in particular when a safeguarding risk is identified, there is a change in working practice, e.g. remote access or BYOD or new technology is introduced

Filtering

The DfE Technical Standards for Schools and Colleges states:

"Schools and colleges have a statutory responsibility to keep children and young people safe online as well as offline. Governing bodies and proprietors should make sure their school or college has appropriate filtering and monitoring systems in place, as detailed in the statutory guidance, Keeping children safe in education.

Filtering is preventative. It refers to solutions that protect users from accessing illegal, inappropriate and potentially harmful content online. It does this by identifying and blocking specific web links and web content in the form of text, images, audio and video

These standards help school and college leaders, designated safeguarding leads and IT support understand how to work together to make sure they can effectively safeguard their students and staff."

- a member of the SLT and a governor, are responsible for ensuring these standards are met. Roles and responsibilities of staff and third parties, for example, in-house or third-party IT support are clearly defined

- the school manages access to content across its systems for all users and on all devices using the schools internet provision. The filtering provided meets the standards defined in the DfE Filtering standards for schools and colleges and the guidance provided in the UK Safer Internet Centre Appropriate filtering.

- where Generative AI products are used, the Trust will seek assurance that appropriate safeguarding, moderation and filtering controls are embedded within those systems to reduce the risk of users being exposed to harmful or inappropriate content.
- illegal content (e.g., child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation URL list and the police assessed list of unlawful terrorist content, produced on behalf of the Home Office. Content lists are regularly updated
- there are established and effective routes for users to report inappropriate content, recognising that no system can be 100% effective. These are acted upon in a timely manner, within clearly established procedures
- there is a clear process in place to deal with, and log, requests/approvals for filtering changes
- filtering logs are regularly reviewed and alert the Designated Safeguarding Lead to breaches of the filtering policy, which are then acted upon.
- There are regular checks of the effectiveness of the filtering systems . Checks are undertaken across a range of devices at least termly and the results recorded and analysed to inform and improve provision. The DSL and Governor are involved in the process and aware of the findings. (Schools may wish to use e.g. using SWGfL Testfiltering.com to carry out these checks)
- Devices that are provided by the school have school-based filtering applied irrespective of their location.
- the school has a mobile phone policy and where personal mobile devices have internet access through the school network, content is managed in ways that are consistent with school policy and practice.
- access to content through non-browser services (e.g. apps and other mobile technologies) is managed in ways that are consistent with school policy and practice.

If necessary, the school will seek advice from, and report issues to, the SWGfL Report Harmful Content site.

Monitoring

The DfE Technical Standards for Schools and Colleges states:

"Monitoring is reactive. It refers to solutions that monitor what users are doing on devices and, in some cases, records this activity. Monitoring can be manual, for example, teachers viewing screens as they walk around a classroom. Technical monitoring solutions rely on software applied to a device that views a user's activity. Reports or alerts are generated based on illegal, inappropriate, or potentially harmful activities, including bullying. Monitoring solutions do not block users from seeing or doing anything."

The school follows the UK Safer Internet Centre Appropriate Monitoring guidance.

The school has monitoring systems in place, agreed by senior leaders and technical staff, to protect the school, systems and users:

- The school monitors all network use across all its devices and services.
- monitoring reports are urgently picked up, acted on and outcomes are recorded by the Designated Safeguarding Lead, all users are aware that the network (and devices) are monitored.
- There are effective protocols in place to report abuse/misuse. There is a clear process for prioritising response to alerts that require rapid safeguarding intervention.
- Management of serious safeguarding alerts is consistent with safeguarding policy and practice.
- The monitoring provision is reviewed at least once every academic year and updated in response to changes in technology and patterns of online safety incidents and behaviours. The review should be conducted by members of the senior leadership team, the designated safeguarding lead, and technical staff. It will also involve the responsible governor. The results of the review will be recorded and reported as relevant.
- Devices that are provided by the school have school-based monitoring applied irrespective of their location.
- monitoring enables alerts to be matched to users and devices.
- where AI –supported monitoring is used, the purpose and scope of this is clearly communicated
- the Trust will ensure that AI-supported monitoring systems are subject to appropriate human oversight and review to mitigate inaccuracies, bias and false positives.

The school follows the UK Safer Internet Centre Appropriate Monitoring guidance and protects users and school systems through the use of the appropriate blend of strategies informed by the school's risk assessment.

These include:

- physical monitoring (adult supervision in the classroom)
- internet use is logged, regularly monitored and reviewed
- filtering logs are regularly analysed and breaches are reported to senior leaders
- pro-active alerts inform the school of breaches to the filtering policy, allowing effective intervention.

Technical Security

The school technical systems will be managed in ways that ensure that the school meets recommended standards in the DfE Technical Standards for Schools and Colleges (and others outlined in local authority / MAT policy and guidance):

- responsibility for technical security resides with SLT who may delegate activities to identified roles.
- A documented access control model is in place, clearly defining access rights to school systems and devices. This is reviewed annually. All users (staff and learners) have responsibility for the security of their username and password and must not allow other users to access the systems using their log on details. Users must immediately report any suspicion or evidence that there has been a breach of security
- password policy and procedures are implemented. (consistent with guidance from the National Cyber Security Centre)
- the security of their username and password and must not allow other users to access the systems using their log on details.
- all users have responsibility for the security of their username and password and must not allow other users to access the systems using their log on details.
- all school networks and system will be protected by secure passwords. Passwords must not be shared with anyone.

- the administrator passwords for school systems are kept in a secure place, e.g. school safe.
- there is a risk-based approach to the allocation of learner usernames and passwords**.**
- there will be regular reviews and audits of the safety and security of school technical systems
- servers, wireless systems and cabling are securely located and physical access restricted
- appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems and devices from accidental or malicious attempts which might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual workstations are protected by up-to-date endpoint software.
- there are rigorous and verified back-up routines, including the keeping of network-separated (air-gapped) copies off-site or in the cloud,
- The Principal is responsible for ensuring that all software purchased by and used by the school is adequately licenced and that the latest software updates (patches) are applied.
- an appropriate system is in place for users to report any actual/potential technical incident/security breach to the relevant person, as agreed)
- use of school devices out of school and by family members is regulated by an acceptable use statement that a user consents to when the device is allocated to them
- personal use of any device on the school network is regulated by acceptable use statements that a user consents to when using the network
- staff members are not permitted to install software on a school-owned devices without the consent of the SLT/IT service provider
- removable media is not permitted unless approved by the SLT/IT service provider
- systems are in place to control and protect personal data and data is encrypted at rest and in transit.
- mobile device security and management procedures are in place
- guest users are provided with appropriate access to school systems based on an identified risk profile.
- systems are in place that prevent the unauthorised sharing of personal / sensitive data unless safely encrypted or otherwise secured.

- Care will be taken when using Artificial Intelligence services to avoid the input of sensitive information, such as personal data, internal documents or strategic plans, into third-party AI systems unless explicitly vetted for that purpose. Staff must always recognise and safeguard sensitive data.
- dual-factor authentication is used for sensitive data or access outside of a trusted network
- where AI services are used for technical security, their effectiveness is regularly reviewed, updated and monitored for vulnerabilities.
- Where AI services are used, the school will work with suppliers to understand how these services are trained and will regularly review flagged incidents to ensure equality for all users e.g. avoiding bias

Mobile technologies

The DfE guidance "Keeping Children Safe in Education" states:

> *"The school or college should have a clear policy on the use of mobile and smart technology. Amongst other things this will reflect the fact many children have unlimited and unrestricted access to the internet via mobile phone networks (i.e. 3G, 4G and 5G). This access means some children, whilst at school or college, sexually harass, bully, and control others via their mobile and smart technology, share indecent images consensually and non-consensually (often via large chat groups) and view and share pornography and other harmful content. Schools and colleges should carefully consider how this is managed on their premises and reflect this in their mobile and smart technology policy and their child protection policy.*

Mobile technology devices may be school owned/provided or personally owned and might include smartphone, tablet, wearable devices, notebook/laptop or other technology that usually has the capability of utilising the school's wireless network. The device then has access to the wider internet which may include the school learning platform and other cloud-based services such as e-mail and data storage.

smart glasses, wearable recording devices, XR headsets and similar technologies:

- The Trust prohibits the use of smart glasses, wearable recording devices and similar technologies by learners whilst on school premises, during

educational visits and at any school activity unless explicitly authorised as part of an agreed educational, accessibility or medical arrangement.

- Staff must not use smart glasses or other wearable recording devices capable of capturing images, video, audio or transmitting data whilst undertaking their professional duties unless authorised by the Principal for a specific educational or operational purpose.

- The use of such devices presents safeguarding, privacy and data protection risks because recording may occur without the knowledge of others. Any unauthorised use of smart glasses or wearable recording devices will be treated as a breach of this policy and may result in disciplinary or behavioural action.

- Where a learner or member of staff has an accessibility, medical or disability-related requirement for such technology, an individual risk assessment and approval process will be completed prior to use.

All users should understand that the primary purpose of the use of mobile/personal devices in a school context is educational. The mobile technologies policy should be consistent with and inter-related to other relevant school polices including but not limited to those for safeguarding, behaviour, anti-bullying, acceptable use, and policies around theft or malicious damage. Teaching about the safe and appropriate use of mobile technologies should be an integral part of the school's online safety education programme.

The school acceptable use agreements for staff, learners, parents, and carers outline the expectations around the use of mobile technologies.

The school allows: (the school should complete the table below to indicate which devices are allowed and define their access to school systems).

	School devices	**Personal devices**

	School owned for individual use	School owned for multiple users	Authorised device[1]	Student owned	Staff owned	Visitor owned
Allowed in school	**Yes**	**Yes**	**Yes**	Only with permission	Only with permission	Only with permission
Full network access	Yes	Yes	Yes	No	No	No
Internet only	-	-	-	No	With permission	With permission
No network access	-	-	-	Yes	-	-

School owned/provided devices:

- *all school devices are managed though the use of Mobile Device Management software*
- *there is an asset log that clearly states whom a device has been allocated to. There is clear guidance on where, when and how use is allowed*
- *any designated mobile-free zone is clearly signposted*
- *personal use (e.g. online banking, shopping, images etc.) is clearly defined and expectations are well-communicated.*

[1] Authorised device – purchased by the learner/family through a school-organised scheme. This device may be given full access to the network as if it were owned by the school.

- = answered elsewhere on table.

- *the use of devices on trips/events away from school is clearly defined and expectation are well-communicated.*
- *liability for damage aligns with current school policy for the replacement of equipment.*
- *education is in place to support responsible use.*

Personal devices:

- *there is a clear policy covering the use of personal mobile devices on school premises for all users*
- *where devices are used to support learning, staff have been trained in their planning, use and implementation, ensuring that all learners can access a required resource.*
- *where personal devices are brought to school, but their use is not permitted, appropriate, safe and secure storge should be made available.*
- *use of personal devices for school business is defined in the acceptable use policy and staff handbook. Personal devices commissioned onto the school network are segregated effectively from school-owned systems*
- *the expectations for taking/storing/using images/video aligns with the school's acceptable use policy and use of images/video policy. The non-consensual taking/using of images of others is not permitted.*
- *liability for loss/damage or malfunction of personal devices is clearly defined*
- *there is clear advice and guidance at the point of entry for visitors to acknowledge school requirements*
- *education about the safe and responsible use of mobile devices is included in the school online safety education programmes*

Social media

The school provides the following measures to ensure reasonable steps are in place to minimise risk of harm to learners through:

- ensuring that personal information is not published.
- education/training being provided including acceptable use, age restrictions, social media risks, digital and video images policy, checking of settings, data protection and reporting issues.
- clear reporting guidance, including responsibilities, procedures, and sanctions.
- risk assessment, including legal risk.
- guidance for learners, parents/carers

School staff should ensure that:

- No reference should be made in social media to learners, parents/carers or school staff.
- they do not engage in online discussion on personal matters relating to members of the school community.
- personal opinions should not be attributed to the school.
- security settings on personal social media profiles are regularly checked to minimise risk of loss of personal information.
- they act as positive role models in their use of social media

When official school social media accounts are established, there should be:

- a process for approval by senior leaders
- clear processes for the administration, moderation, and monitoring of these accounts – involving at least two members of staff
- a code of behaviour for users of the accounts
- systems for reporting and dealing with abuse and misuse
- understanding of how incidents may be dealt with under school disciplinary procedures.

Personal use

- personal communications are those made via personal social media accounts. In all cases, where a personal account is used which associates itself with, or impacts on, the school it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy
- personal communications which do not refer to or impact upon the school are outside the scope of this policy
- where excessive personal use of social media in school is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken

Monitoring of public social media

- As part of active social media engagement, the school may pro-actively monitor the Internet for public postings about the school.
- the school should effectively respond to social media comments made by others according to a defined policy or process.

- when parents/carers express concerns about the school on social media we will urge them to make direct contact with the school, in private, to resolve the matter. Where this cannot be resolved, parents/carers should be informed of the school complaints procedure.

School use of social media for professional purposes will be checked regularly by a senior leader and the Online Safety Lead to ensure compliance with the social media, data protection, communications, digital image and video policies. In the event of any social media issues that the school is unable to resolve support may be sought from the Professionals Online Safety Helpline.

Digital and video images

The development of digital imaging technologies has created significant benefits to learning, allowing staff and learners instant use of images that they have recorded themselves or downloaded from the internet. However, staff, parents/carers and learners need to be aware of the risks associated with publishing digital images on the internet. Such images may provide avenues for online bullying to take place. Digital images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. It is common for employers to carry out internet searches for information about potential and existing employees.

The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm:

- the school recognises the increasing risk of AI-generated image manipulation, deepfakes, synthetic media and the creation or sharing of sexually explicit altered images. Learners and staff will be educated about these risks and safeguarding concerns will be managed in accordance with child protection procedures.
- the school may use live-streaming or video-conferencing services in line with national and local safeguarding guidance / policies.
- when using digital images, staff will inform and educate learners about the risks associated with the taking, use, sharing, publication and distribution of images.

- staff/volunteers must be aware of those learners whose images must not be taken/published. Those images should only be taken on school devices. The personal devices of staff should not be used for such purposes
- in accordance with guidance from the Information Commissioner's Office, parents/carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use in not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other learners in the digital/video images
- learners must not take, use, share, publish or distribute images of others without their permission
- photographs published on the website, or elsewhere that include learners will be selected carefully and will comply with Online Safety Policy
- learners' full names will not be used anywhere on a website or blog, particularly in association with photographs.
- written permission from parents or carers will be obtained before photographs of learners are taken for use in school or published on the school website/social media.
- parents/carers will be informed of the purposes for the use of images, how they will be stored and for how long – in line with the school data protection policy
- images will be securely stored in line with the school retention policy

Online Publishing

The school communicates with parents/carers and the wider community and promotes the school through:

- Public-facing website
- Bromcom / My child at school App
- Social media/Video sharing
- Online newsletters

The school website is managed schools and Trust staff with senior leadership oversight/direction. The school ensures that online safety policy has been followed in the use of online publishing e.g., use of digital and video images, copyright,

identification of young people, publication of school calendars and personal information – ensuring that there is least risk to members of the school community, through such publications.

Where learner work, images or videos are published, their identities are protected, and full names are not published.

Data Protection

Personal data will be recorded, processed, transferred and made available in accordance with current UK data protection legislation, including UK GDPR, the Data Protection Act 2018 and relevant provisions within the Data (Use and Access) Act 2025.

The school (as part of LAT):

- has a Data Protection Policy.
- implements the data protection principles and can demonstrate that it does so
- has paid the appropriate fee to the Information Commissioner's Office (ICO)
- has appointed an appropriate Data Protection Officer (DPO) who has effective understanding of data protection law and is free from any conflict of interest.
- has a 'Record of Processing Activities' in place and knows exactly what personal data is held, where, why and which member of staff has responsibility for managing it (held within School Pro)
- the Record of Processing Activities lists the lawful basis for processing personal data (including, where relevant, consent). Where special category data is processed, an additional lawful basis is listed
- has an 'information asset register' in place and knows exactly what personal data is held, where, why and which member of staff has responsibility for managing it
- information asset register lists the lawful basis for processing personal data (including, where relevant, consent). Where special category data is processed, an additional lawful basis will have also been listed

- will hold the minimum personal data necessary to enable it to perform its function and will not hold it for longer than necessary for the purposes it was collected for. The school 'retention schedule" supports this
- data held is accurate and up to date and is held only for the purpose it was held for. Systems are in place to identify inaccuracies, such as asking parents to check emergency contact details at suitable intervals
- provides staff, parents, volunteers, teenagers, and older children with information about how the school looks after their data and what their rights are in a clear Privacy Notice
- has procedures in place to deal with the individual rights of the data subject,
- carries out Data Protection Impact Assessments (DPIA) where necessary e.g. to ensure protection of personal data when accessed using any remote access solutions, or entering into a relationship with a new supplier
- has undertaken appropriate due diligence and has data protection compliant contracts in place with any data processors
- understands how to share data lawfully and safely with other relevant data controllers.
- has clear and understood policies and routines for the deletion and disposal of data
- reports any relevant breaches to the Information Commissioner within 72hrs of becoming aware of the breach as required by law. It also reports relevant breaches to the individuals affected as required by law. In order to do this, it has a policy for reporting, logging, managing, investigating and learning from information risk incidents
- has a Freedom of Information Policy which sets out how it will deal with FOI requests
- provides data protection training for all staff at induction and appropriate refresher training thereafter. Staff undertaking particular data protection functions, such as handling requests under the individual's rights, will receive training appropriate for their function as well as the core training provided to all staff
- ensures that where AI services are used, data privacy is prioritised

When personal data is stored on any mobile device or removable media the:

- data will be encrypted, and password protected.
- device will be password protected.
- device will be protected by up-to-date endpoint (anti-virus) software
- data will be securely deleted from the device, in line with school policy (below) once it has been transferred or its use is complete.

Staff must ensure that they:

- at all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse
- can recognise a possible breach, understand the need for urgency and know who to report it to within the school
- can help data subjects understand their rights and know how to handle a request whether verbal or written and know who to pass it to in the school
- only use encrypted data storage for personal data
- will not transfer any school personal data to personal devices.
- use personal data only on secure password protected computers and other devices, ensuring that they are properly "logged-off" at the end of any session in which they are using personal data
- transfer data using encryption, a secure email account (where appropriate), and secure password protected devices.

Cyber Security

The DfE Cyber security standards for schools and colleges explains:

"Cyber incidents and attacks have significant operational and financial impacts on schools and colleges. These incidents or attacks will often be an intentional and unauthorised attempt to access, change or damage data and digital technology. They could be made by a person, group, or organisation outside or inside the school or college and can lead to:

- safeguarding issues due to sensitive personal data being compromised
- impact on student outcomes
- a significant data breach

- significant and lasting disruption, including the risk of repeated future cyber incidents and attacks, including school or college closure
- financial loss
- reputational damage”

The ‘Cyber-security in schools: questions for governing bodies and Trustees’ guidance produced by the National Cyber Security Centre (NCSC) aims to support governing bodies’ and management committees’ understanding of their education settings’ cyber security risks. The guidance includes eight questions to facilitate the cyber security conversation between the governing body and school leaders, with the governing body taking the lead.

- the Trust has reviewed and implemented the DfE Cyber Security Standards for Schools and Colleges and maintains Cyber Essentials accreditation.
- the school will conduct a cyber risk assessment annually and review each term
- the school, (*in partnership with their technology support partner),* has identified the most critical parts of the school’s digital and technology services and sought assurance about their cyber security
- the school has an effective backup and restoration plan in place in the event of cyber attacks
- the school’s governance and IT policies reflect the importance of good cyber security
- staff and Governors receive training on the common cyber security threats and incidents that schools experience
- the school’s education programmes include cyber awareness for learners
- the school has a business continuity and incident management plan in place
- there are processes in place for the reporting of cyber incidents. All students and staff have a responsibility to report cyber risk or a potential incident or attack, understand how to do this feel safe and comfortable to do so.

Outcomes

The impact of the Online Safety Policy and practice is regularly evaluated through the review/audit of online safety incident logs; behaviour/bullying reports; surveys of staff, learners; parents/carers and is reported to relevant groups:

- there is balanced professional debate about the evidence taken from the reviews/audits and the impact of preventative work e.g., online safety education, awareness, and training
- there are well-established routes to regularly report patterns of online safety incidents and outcomes to school leadership and Governors
- parents/carers are informed of patterns of online safety incidents as part of the school's online safety awareness raising
- online safety (and related) policies and procedures are regularly updated in response to the evidence gathered from these reviews/audits/professional debate
- the evidence of impact is shared with other schools, agencies and LAs to help ensure the development of a consistent and effective local online safety strategy

School Online Safety Policy Template Appendices

AI Acceptable Use Policy for staff

AI Principles

AI Incident

1. Learner Acceptable Use Agreement Template – for older learners

This acceptable use agreement is intended to ensure:

- that young people will be responsible users and stay safe while using the internet and other digital technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and will have good access to digital technologies to enhance their learning and will, in return, expect the learners to agree to be responsible users.

Acceptable Use Agreement

I agree to use the school's digital systems responsibly to protect my safety, the security of the school systems, and others.

Personal Safety

- The school will monitor my use of its digital systems, devices, and communications.
- I will keep my usernames and passwords secure and private. If compromised, I will report or change them immediately.
- I will only share personal information, like my name or address, when absolutely necessary and with permission.
- I will be cautious when meeting online contacts in person, only doing so with a trusted adult in a public place.
- I will take responsibility for my actions online, using tools like blocking or ending chats if needed.
- I will share images of myself or others only when it is safe and will ensure the images are appropriate and respectful.
- I will only take or share images of myself, or others, when fully dressed. I understand that sharing nude or semi-nude content can cause distress, may be illegal and could lead to prosecution / criminal records.

- I will report harmful or unpleasant material, messages, or anything that worries or upsets me to a trusted adult.

Respecting Others' Work and Information

- I will seek permission before using or adapting someone else's work.
- I will verify information I find online, as it may not always be accurate or truthful.
- I will only use Artificial Intelligence (AI) tools approved by the school and ensure my use is ethical, legal, and transparent.
- I will fact-check and critically evaluate AI-generated content for accuracy, bias, and discrimination before sharing or publishing.
- I will avoid downloading or using copyrighted or protected materials without proper permissions.

Responsible Online Behaviour

- I will be polite and responsible when I communicate with others. I will not use strong, aggressive or inappropriate language and I appreciate that others may have different opinions. I will not bully, harass, threaten, upset or make fun of others.

- I will only use platforms or software approved by the school and will not attempt to bypass the filtering/security systems in place. If I become aware of any such attempts, I will report this to a trusted adult.
- I understand cybersecurity poses a risk to both me, other learners and the school and will ensure I take precautions before accessing emails, messages or links. I will check with trusted adults if I have any such concerns.
- I will immediately report any damage, faults or failings involving equipment or software, however this may have happened.
- I will follow the age requirements for social media, apps, and tools.

- I will balance my online and offline activities to promote a healthy lifestyle.
- I will protect my online reputation and that of the school, its staff, and other learners.
- I understand that some online behaviours might be regarded, by some, as fun but can have serious consequences – this might include taking (or sharing) images/videos of staff, fights, learners in embarrassing situations or the setting up of fake accounts.
- I will ensure my behaviour reflects positively on the school, both in and out of school settings.

Consequences of Misuse

- I understand that failing to follow this agreement may lead to consequences, including loss of access to the school's systems, detentions, suspensions, contacting parents/carers, or involvement of the police in serious cases.

By following these guidelines, I will contribute to a safe, respectful, and productive online environment.

I have read and understand the above and agree to follow these guidelines when:

- I use the school's systems and devices (both in and out of school)
- I use my own devices in the school (when allowed)
- I use digital technologies out of the school in a way that is related to me being a member of this school e.g. communicating with other members of the school, accessing school email, website etc.

(Schools will need to decide if they require learners to sign, or whether they wish to simply make them aware of acceptable use through education programmes/awareness raising).

Name of Learner: ..... Group/Class: .....

.....

Signed: ---------- Date: ----------

Parent/Carer Countersignature (optional)

It is for schools to decide whether or not they require parents/carers to sign the parent/carer acceptable use agreement (see template later in this document). This includes a number of other permission forms (including digital and video images/biometric permission/cloud computing permission).

Some schools may, instead, wish to add a countersignature box for parents/carers to this learner acceptable use agreement.

2. Learner Acceptable Use Agreement Template – for KS2

This acceptable use agreement is intended:

- to ensure that learners will have good access to devices and online content, be responsible users and stay safe while using digital technologies for educational, personal and recreational use
- to help learners understand good online behaviours that they can use in school, but also outside school
- to protect school devices and networks from accidental or deliberate misuse that could put the security of the systems and users at risk.

Acceptable Use Agreement

I agree to use the school's digital systems safely and responsibly to protect me, other learners and the school.

Keeping Safe Online

- The school will check how I use devices and the internet to keep everyone safe.
- I will keep my usernames and passwords private and tell a trusted adult if someone else knows them.
- I will be careful when talking to people online and will only talk to people I know and trust.
- I will not share personal information like my name, address, or photos without asking a trusted adult.
- I will only take or share images of myself, or others, when fully dressed.
- If I see or hear something online that worries or upsets me, I will tell a trusted adult straight away.
- I will only meet people I have spoken to online if a trusted adult is with me.

Using Computers and the Internet Sensibly

- I will only use devices, apps and sites that I am allowed to, and will check if I am unsure.
- I will always ask permission and check with a trusted adult before using someone else's work or pictures.
- I will make sure the information I find online is true by checking carefully.
- I will only use apps or tools, like AI, that my teacher has said are OK, and I will ask for help if I'm unsure.
- I will not copy or use music, videos, or games unless I have permission.
- I will tell a trusted adult about any damage to devices or if anything else goes wrong.
- I will check with trusted adults before clicking on any unexpected messages or links (even if these look as though they are from people that I already know).

Being Respectful and Responsible

- I will treat others kindly online, just as I do in real life.
- I will make good choices about what I share online to protect myself and others.
- I will spend a healthy amount of time using devices and make time for other activities too.
- I will always think about how my behaviour online could affect me, my friends, and my school.

What Happens If I Break These Rules

- If I don't follow these rules, my teacher may stop me from using computers or devices, speak to my parents, or take other actions to help me make better choices in the future.

By following these rules, I can enjoy using technology safely and responsibly.

I have read and understand the above and agree to follow these guidelines when:

- I use the school systems and devices (both in and out of school)
- I use my own devices in the school (when allowed) e.g. mobile phones, gaming devices USB devices, cameras etc.
- I am out of school and involved in any online behaviour that might affect the school or other members of the school.

Name of Learner: ..... Group/Class: .....

Signed: ..... Date: .....

Schools will need to decide if they require learners to sign, or whether they wish to simply make them aware through education programmes/awareness raising.

Parent/Carer Countersignature (optional)

It is for schools to decide whether or not they require parents/carers to sign the parent/carer acceptable use agreement (see template later in this document in the Parent/Carer AUA). This includes a number of other permission forms (including digital and video images/biometric permission/cloud computing permission).

Some schools may, instead, wish to add a countersignature box for parents/carers to this learner acceptable use agreement.

3. Learner Acceptable Use Agreement Template – for younger learners (Foundation/KS1)

Our Technology Rules

I will follow these rules to use computers, tablets and the internet safely at school.

Staying Safe

- My teacher will watch what I do on computers, tablets and the internet to keep me safe.
- I will keep my passwords secret and tell my teacher if I need help.
- I understand that people online are not always who they say they are. I will only talk to people online if my teacher or a trusted adult says it's OK.
- I will not share my name, address, or pictures without asking my teacher or a trusted adult first.
- If I see something that makes me feel worried or upset, I will tell my teacher or a trusted adult straight away.
- I will only use apps, games or websites my teacher says are safe.

Using Technology Kindly

- I will be kind when using technology, just like I am in real life.
- I will take care of the computers and tablets I use.
- I will only look at things my teacher says are OK.

Making Good Choices

- I will ask my teacher before I use someone else's pictures or work.
- I will take breaks from screens and do other fun things too.
- I know that I can say no / please stop to anyone online who makes me feel sad, uncomfortable, embarrassed or upset.
- I will ask for help from a trusted adult if I am not sure what to do or if I think I may have done something wrong.

What Happens If I Forget the Rules

- If I forget the rules, my teacher will help me learn to make better choices next time.

These rules help us all stay safe and have fun using computers and tablets at school!

Signed (child): .....

(The school will need to decide whether or not they wish the children to sign the agreement – and at which age - for younger children the signature of a parent/carer should be sufficient)

Signed (parent): .....

Primary schools using this acceptable use agreement for younger children may also wish to use (or adapt for use) the parent/carer acceptable use agreement (the template can be found later in these templates) as this provides additional permission forms (including the digital and video images permission form).

4. Parent/Carer Acceptable Use Agreement Template

Note – Remove/adapt blue sections

Digital technologies have become integral to the lives of children and young people, both within schools and outside school. These technologies provide powerful tools, which open new opportunities for everyone. They can stimulate discussion, promote creativity, and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe internet access at all times.

This acceptable use policy is intended to ensure:

- that young people will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that parents and carers are aware of the importance of online safety and are involved in the education and guidance of young people with regard to their on-line behaviour.

The school will try to ensure that learners have good access to digital technologies to enhance their learning and will, in return, expect the learners to agree to be responsible users. A copy of the learner acceptable use agreement is attached to this permission form, so that parents/carers will be aware of the school expectations of the young people in their care.

Parents are requested to sign the permission form below to show their support of the school in this important aspect of the school's work.

Permission Form

Parent/Carers Name: .....

Learner Name: .....

As the parent/carer of the above learners, I give permission for my son/daughter to have access to the digital technologies at school.

Either: (KS2 and above)

I know that my son/daughter has signed an acceptable use agreement and has received, or will receive, online safety education to help them understand the importance of safe use of technology and the internet – both in and out of school.

Or: (KS1)

I understand that the school has discussed the acceptable use agreement with my son/daughter and that they have received, or will receive, online safety education to help them understand the importance of safe use of technology and the internet – both in and out of school.

I understand that the school will take every reasonable precaution, including monitoring and filtering systems, to ensure that young people will be safe when they use the internet and systems. I also understand that the school cannot ultimately be held responsible for the nature and content of materials accessed on the internet and using mobile technologies.

I understand that my son's/daughter's activity on the systems will be monitored and that the school will contact me if they have concerns about any possible breaches of the acceptable use agreement.

I will encourage my child to adopt safe use of the internet and digital technologies at home and will inform the school if I have concerns over my child's online safety.

As the schools is collecting personal data by issuing this form, it should inform parents/carers as to:

This form (electronic or printed)
Who will have access to this form.
Where this form will be stored.
How long this form will be stored for.

How this form will be destroyed.

Signed: .....

Date: .....

Use of Digital/Video Images

The use of digital/video images plays an important part in learning activities. Learners and members of staff may use digital cameras to record evidence of activities in lessons and out of school. These images may then be used in presentations in subsequent lessons.

Images may also be used to celebrate success through their publication in newsletters, on the school website and occasionally in the public media. Where an image is publicly shared by any means, only your child's first name will be used.

The school will comply with the Data Protection Act and request parent's/carer's permission before taking images of members of the school. We will also ensure that when images are published that the young people cannot be identified by the use of their names.

In accordance with guidance from the Information Commissioner's Office, parents/carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use in not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other learners in the digital/video images.

Parents/carers are requested to sign the permission form below to allow the school to take and use images of their children and for the parents/carers to agree.

As the schools is collecting personal data by issuing this form, it should inform parents/carers as to:

This form (electronic or printed)	The images
Who will have access to this form.	Where the images may be published. Such as; Twitter, Facebook, the schools website, local press, etc. (see relevant section of form below)
Where this form will be stored.	Who will have access to the images.
How long this form will be stored for.	Where the images will be stored.
How this form will be destroyed.	How long the images will be stored for.
	How the images will be destroyed.
	How a request for deletion of the images can be made.

Digital/Video Images Permission Form

Parent/Carers Name:..... Learner Name:.....

As the parent/carer of the above learner, I agree to the school taking digital/video images of my child/children.	Yes/No
I agree to these images being used:	
• to support learning activities.	Yes/No
• in publicity that reasonably celebrates success and promotes the work of the school.	Yes/No
Insert statements here that explicitly detail where images are published by the schools	Yes/No

I agree that if I take digital or video images at, or of school events which include images of children, other than my own, I will abide by these guidelines in my use of these images.	Yes/No

Signed: ----------

Date: ----------

Use of Cloud Systems Permission Form

Schools that use cloud hosting services may be required to seek parental permission to set up an account for learners.

Schools will need to review and amend the section below, depending on which cloud hosted services are used.

The school uses **insert cloud service provider name** for learners and staff. This permission form describes the tools and learner responsibilities for using these services.

The following services are available to each learner as part of the school's online presence in **insert cloud service provider name**

Using **insert cloud service provider name** will enable your child to collaboratively create, edit and share files and websites for school related projects and communicate via email with other learners and members of staff. These services are entirely online and available 24/7 from any internet-connected computer.

The school believes that use of the tools significantly adds to your child's educational experience.

As the school is collecting personal data and sharing this with a third party, it should inform parents/carers about:

This form (electronic or printed)	The data shared with the service provider

Who will have access to this form.	What data will be shared
Where this form will be stored.	Who the data will be shared with
How long this form will be stored for.	Who will have access to the data.
How this form will be destroyed.	Where the data will be stored.
	How long the data will be stored for.
	How the data will be destroyed.
	How a request for deletion of the data can be made.

Do you consent to your child to having access to this service? Yes/No

Learner Name: ..... Parent/Carers Name: .....

Signed: ..... Date: .....

Use of Biometric Systems in England and Wales

If the school uses biometric systems (e.g. fingerprint/palm recognition technologies) to identify children for access, attendance recording, charging, library lending etc it must (under the "Protection of Freedoms" and Data Protection legislation) seek permission from a parent or carer.

The school uses biometric systems for the recognition of individual children in the following ways (the school should describe here how it uses the biometric system).

Biometric technologies have certain advantages over other automatic identification systems as learners do not need to remember to bring anything with them (to the canteen or school library) so nothing can be lost, such as a swipe card.

The school has carried out a data privacy impact assessment and is confident that the use of such technologies is effective and justified in a school context.

No complete images of fingerprints/palms are stored and the original image cannot be reconstructed from the data. Meaning that it is not possible, for example, to recreate a learner's fingerprint or even the image of a fingerprint from what is in effect a string of numbers.

As the school is collecting special category personal data and **delete as appropriate** sharing this with a third party, it should inform parents/carers about:

This form (electronic or printed)	The data shared with the service provider
Who will have access to this form.	What data will be shared
Where this form will be stored.	Who the data will be shared with
How long this form will be stored for.	Who will have access to the data.
How this form will be destroyed.	Where the data will be stored.
	How long the data will be stored for.
	How the data will be destroyed.
	How consent to process the biometric data can be withdrawn.

Parent/Carers Name: .....

Learner Name: .....

As the parent/carer of the above learner, I agree to the school using biometric recognition systems, as described above. Yes/No

I understand that the images cannot be used to create a whole fingerprint/palm print of my child and that these images will not be shared with anyone outside the school.	Yes/No

Signed: .....

Further guidance

- Each parent of the child should be notified by the school that they are planning to process their child's biometrics and notified that they are able to object.
- In order for a school to process children's biometrics at least one parent must consent and no parent has withdrawn consent. This needs to be in writing.
- The child can object or refuse to participate in the processing of their biometric data regardless of parents' consent.
- Schools must provide reasonable alternative means of accessing services for those learners who will not be using an automated biometric recognition system.
- Permission only needs to be collected once during the period that the learner attends the school, but new permission is required if there are changes to the biometric systems in use.

Learner Acceptable Use Agreement

On the following pages we have copied, for the information of parents and carers, the learner acceptable use agreement.

It is suggested that when the learner AUA is written that a copy should be attached to the parents/carers acceptable use agreement to provide information for parents and carers about the rules and behaviours that learners have committed to by signing the form.

5. Staff (and Volunteer) Acceptable Use Policy Agreement

School Policy

Digital technologies have become integral to the lives of everyone, including children and young people , both within schools and in their lives outside school. The internet and digital technologies are powerful tools, which can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. The school has the right to protect itself and its systems and all users should have an entitlement to safe access to the internet and digital technologies at all times.

This acceptable use policy is intended to ensure:

- that staff and volunteers will be responsible users and stay safe while online and using digital technologies for educational, personal and recreational use
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk
- that staff are protected from potential risk in their use of technology in their everyday work.

The school will try to ensure that staff and volunteers will have good access to digital technology to enhance their work, to enhance learning opportunities and will, in return, expect staff and volunteers to agree to be responsible users.

Acceptable Use Policy Agreement

I understand that I must use school systems in a responsible way, to minimise the risk to the safety, privacy or security of the school community and its systems. I acknowledge the potential of digital technologies for enhancing learning and will endeavour to integrate them in a way that aligns with the school's policy, ethos and values.

For my professional and personal safety:

- I understand that the school will monitor my use of school devices and digital technology systems
- I understand that the rules set out in this agreement also apply to use of these devices and technologies out of school, and to the transfer of personal / sensitive data (digital or paper based) out of the school

- I understand that the school devices and digital technology systems are primarily intended for educational use and that I will only use them for personal or recreational use within relevant school policies. .
- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password.
- I will store my passwords securely and in line with the school's relevant security policy.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.

I will be professional in my communications and actions when using digital technologies and systems:

- I will not access, copy, remove or otherwise alter any other user's files, without their express permission.
- I will communicate with others in a professional manner. I will not use aggressive or inappropriate language, and I appreciate that others may have different opinions.
- I will ensure that when I take and/or publish images of others I will do so with their permission and in accordance with the school's policy on the use of digital/video images and taking account of parental permissions. I will not use my personal equipment to record these images, unless I have permission to do so. Where these images are published (e.g. on the school website) it will not be possible to identify by name, or other personal information, those who are featured.
- I will only use social networking sites in the school in accordance with school policies.
- I will only communicate with learners and parents/carers using official school systems. Any such communication will be professional in tone and manner.
- I will not engage in any online activity that may compromise my professional responsibilities.

The school has the responsibility to provide safe and secure access to technologies and ensure the smooth running of the school:

- I will abide by all relevant guidance and legislation (e.g., Keeping Children Safe in Education / UK GDPR)
- I will ensure that I am aware of cyber-security risks and that I will not respond to any communications that might put my / school data or systems at risk from attack
- When using AI systems in my professional role I will use these responsibly and:
    - will only use AI technologies approved by the school
    - will be aware of the risks of bias and discrimination, critically evaluating the outputs of AI systems for such risks
    - to protect personal and sensitive data, I will ensure that I have explicit authorisation when uploading sensitive school-related information into AI systems
    - will take care not to infringe copyright or intellectual property conventions – care will be taken to avoid intellectual property, including that of the learners, being used to train generative AI models without appropriate consent.
    - ensure that documents, emails, presentations, and other outputs influenced by AI include clear labels or notes indicating AI assistance
    - critically evaluate AI-generated outputs to ensure that all AI-generated content is fact-checked and reviewed for accuracy before sharing or publishing
    - will use generative AI tools responsibly to create authentic and beneficial content, ensuring respect for individuals' identity and well-being
- When I use my personal mobile devices in school, I will follow the rules set out by the school, in the same way as if I was using school equipment. I will ensure that any such devices are protected by up to date anti-virus / anti-malware software and are free from viruses.
- When communicating in a professional capacity, I will only use technology and systems sanctioned by the school.
- I will not use personal accounts on school systems.
- I will exercise informed safe and secure practice when accessing links to content from outside of my organisation to reduce the risk of cyber security threats.

- I will ensure that my data is regularly backed up, in accordance with relevant school policies.
- I will not access illegal, inappropriate or harmful content on school systems.
- I will not bypass any filtering or security systems that are used to prevent access to such content.
- I will not install or attempt to install unauthorised programmes of any type on a school device , nor will I try to alter device settings, unless this is allowed in school policies
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the school Data Security Policy (or other relevant policy). Where digital personal data is transferred outside the secure local network, it must be encrypted. Paper based documents containing personal data must be held in lockable storage.
- I understand that the data protection policy requires that any staff or learner data to which I have access, will be kept private and confidential, except when it is deemed necessary that I am required by law or by school policy to disclose such information to an appropriate authority.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.

When using the internet in my professional capacity or for school sanctioned personal use:

- I will ensure that I have appropriate permissions to use the original work of others in my own work and will reflect this with appropriate acknowledgements, particularly where AI has been used to generate content
- Where content is protected by copyright, I will not download or distribute copies (including music and videos).

I understand that I am responsible for my actions in and out of the school:

- I understand that this acceptable use agreement applies to my use of digital technologies related to my professional responsibilities, within or outside of the school.
- I will ensure my use of technologies and platforms is in line with the school's agreed codes of conduct.

- I understand that if I fail to comply with this acceptable use agreement, I could be subject to disciplinary action. This could include a warning, a suspension, referral to the Local Authority /Trust in the event of illegal activities, the involvement of the Police.

I have read and understand the above and agree to use the school digital technology systems (both in and out of the school) and my own devices (in the school and when carrying out communications related to the school) within these guidelines.

Staff/Volunteer Name: ----------

Signed: ----------

Date: ----------

6. Acceptable Use Agreement for Community Users Template

This acceptable use agreement is intended to ensure:

- that community users of school digital technologies will be responsible users and stay safe while using these systems and devices
- that school systems, devices and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that users are protected from potential harm in their use of these systems and devices

Acceptable Use Agreement

I understand that I must use school systems and devices in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems, devices and other users. This agreement will also apply to any personal devices that I bring into the school:

- I understand that my use of school systems and devices will be monitored
- I will not use a personal device that I have brought into school for any activity that would be inappropriate in a school setting.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, terrorist and extremist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering/security systems in place to prevent access to such materials.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.
- I will not access, copy, remove or otherwise alter any other user's files, without permission.
- I will ensure that if I take and/or publish images of others I will only do so with their permission. I will not use my personal equipment to record these images, without permission. If images are published it will not be possible to identify by name, or other personal information, those who are featured.
- I will not publish or share any information I have obtained whilst in the school on any personal website, social networking site or through any other means, unless I have permission from the school.
- I will not, without permission, make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.

- I will not install or attempt to install programmes of any type on a school device, nor will I try to alter computer settings, unless I have permission to do so.
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will immediately report any damage or faults involving equipment or software, whatever the cause.
- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).
- I understand that if I fail to comply with this acceptable use agreement, the school has the right to remove my access to school systems/devices

I have read and understand the above and agree to use the school systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.

As the school is collecting personal data by issuing this form, it should inform community users about:

Who will have access to this form.	How this form will be destroyed.
Where this form will be stored.	How long this form will be stored for.
